Southeastern School Board

393 Main Street Fawn Grove Pa 17321

Dear Board Members:

It has been brought to our attention that the board is about to expend a large sum of funds on the "Emergency Lane" from the Kennard Dale parking area onto Thompson Road.

On December 19-2007 the "Emergency Lane" was checked by the Fire Company.

While not an optimal paved drive, it is an improved stone lane, which is comparable to or better than most stone lanes within the borough and the township and therefore accessible by Fire Company apparatus.

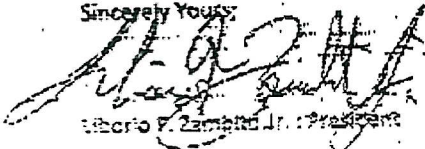

With the possible exception of a 25-ton Ladder Truck, that would be mutual aid from another district, but would also encounter adverse effects on Thompson Road before it could reach the "Emergency Lane" and would most likely enter on the Main Street side of the Campus.

Also with the knowledge of funds in the Municipalities' and with the idea that most likely there are no plans by either to pave Thompson Road any time soon.

The Citizens Volunteer Fire Company would urge the Board Members not to expend these funds on the "Emergency Lane" at this time. We feel that these funds can be put to better use in other areas and help to reduce the Taxes that our fine Citizens pay.

Thank you for your urgent attention in this matter.

Sincerely Yours,

Marco F. Zambello Jr., President
